# Bath Salts

# INTRODUCTION / OVERVIEW

The Florida Department of Law Enforcement (FDLE) is providing the following situational awareness brief addressing new psychoactive substances that are being marketed as “bath salts.” These “bath salts” are among the latest in a series of currently legal synthetic substances that, when used improperly,

Suspected as being produced as legal substitutes for ecstasy, cocaine, and amphetamines, “bath salts” are powerful stimulant drugs that are suspected to have been designed to avoid legal prosecution, and are commonly available on the Internet, specialty “smoke” shops, and convenience stores

“Bath salts” can be comprised of different unregulated chemical substances and are being sold under a variety of names or brands. Both the law enforcement community and medical professionals indicate that “bath salts” are becoming increasingly popular due to the perception that they pose a seemingly safer alternative to illegal

# THE FLORIDA CONNECTION

On January 26, 2011, Florida Attorney General Pam Bondi deemed “bath salts” to be a significant threat to health and public safety within the State of Florida. By delegation of authority granted under Chapter 893.035(7)(a), Florida Statute, Attorney General Bondi placed these chemicals found in “bath salts” as emergency Schedule I drugs in which the purchase, possession, sale, and/or distribution can result in a felony arrest.
